Homoeo Laboratories

Homoeopathy....The holistic healing.

Homoeopathy..... The holistic healing.

The word HOMOEOPATHY is derived from the Greek word HOMOEOS which means SIMILAR. It has a very basic principle that “similia similibus curantur” means “like cure likes”. Now it has been over 200 years since Dr. Samuel Hahnemann, the scholar and founder of homoeopathy from Germany, created the first drug Cinchona. Homoeopathy truly defines health that can be attained through the spiritual, mental, physical well being of a person and boosts the immunity by getting rid of diseases.

Homoeopathic medicines which are in very minute dose, acts by helping our body's healing power to restore health back to its normalcy, and complete cure of disease. These medicines act very gently and without any side effects. Though homoeopathy has its forte in management of chronic diseases, it has proved equally efficient in acute diseases. From its inception till date, homoeopathy has stood tall in resolving all controversies. Surprisingly those who criticized, later got converted to homoeopathy. Now homoeopathy is practiced all over the globe and India is its hub. Here it has been honored by great people like Swami Vivekananda and Mahatma Gandhi.

Homoeopathy has always spoken through the language of cure for millions of ailing patients and proved its rational and scientific basis. In the era of technological advancement where psychosomatic diseases are prevalent, homoeopathy has proved to be a blessing. It is a safer and gentler way of attaining health..

Do's & Dont's

- Try to avoid consumption of raw onion and garlic during the tenure of treatment.
- Avoid over consumption of coffee during tenure of treatment.
- Avoid consumption of food etc. half an hour before and after the medicine is consumed.
- Avoid taking pills in hand, take the suggested doses by means of the bottle cap.
